EDUCATION FOR SAFETY - A REAL NEED IN OUR SCHOOLS

by

IVAN J. STEHMAN

While modern civilization has brought into our lives many new cures for disease, many devices to save time, and many devices to save labor, it has not yet evolved that supergadget - a device to save us from accidents. The many accidents which accompany the stepped-up tempo of our daily living call for a comprehensive educational program of accident prevention. The automobile which gives us so much pleasure and which has become a must in our lives is almost synonymous with the word accident. Statistics show that boys and girls of school age are all too frequently involved in automobile accidents both as a driver and a pedestrian. One can readily see, then, why it is important to provide education for safe living and the conservation of human life. *The variegated offerings of the modern curriculum are of no avail if a life is lost or a body is hopelessly injured by a careless accident.*

The adventurous spirit of youth and the increasing centralization of population have brought about an increasing number of automobile casualties and these in turn have necessitated the establishment in our schools of courses of study to meet these conditions. That the public is rapidly awakening to the importance of the need for Safety Education is shown in the increasing number of State laws and regulations requiring safety education to be taught in the public schools. *Highway Safety and Driver Education and Training have become an essential part of the education of all persons.*

PROGRESS IN DRIVER TRAINING

We are off to a good start in Pennsylvania in our Driver Education and Training Program, but we must do better. The State Council of Education has approved the teaching of Highway Safety Education, and the General Assembly in 1947 enacted legislation (Act 474) which provides that Highway Safety Education may be taught and schools may provide for liability insurance on the cars owned or operated by the school district.

At least one or more courses have been established in forty-eight of the sixty-seven counties (see accompanying map); and it is encouraging to note that the small rural schools are making as earnest endeavors as the large city schools. While the more densely populated counties show the greatest number of high schools conducting such courses, one county with three small schools has started the program in each of them. The Driver Education and Training Program is making headway in all four classes of Pennsylvania's school districts.

The following table indicates the encouraging expansion of the program:

SCHOOL YEAR	NO. HIGH SCHOOLS CONDUCTING D.E. & T. PROGRAMS	NO. ENROLLED IN CLASS- ROOM INSTRUCTION	NO. ENROLLED IN BEHIND-THE-WHEEL INSTRUCTION
1945-46	3	*	*
1946-47	21	3,221	720
1947-48	120	12,000	3,969
1948-49	201	18,730	9,280

* DATA NOT AVAILABLE

Because safety is concerned with attitudes and techniques as well as knowledge and theory, it is essential that the teacher in this field receive practical training just as the teacher of any other subject. Laboratory experience in Safety Education is essential for Driver Education and Training. The instructor must be the example in personal practice and manipulative skills for the student. The adequately trained teachers of this course set up a program of practical activities. They teach students through these class activities, thus carrying out the principle that students learn by doing. They teach the right way - the safe way. Every activity must be performed in some manner. It takes no longer to perform it the right way than it takes to perform it the wrong way, the incorrect or unsafe way. In the beginning it may take time for the teacher and the student to learn the correct way, but once learned and practical a desirable habit is formed.

NEED FOR TRAINED INSTRUCTORS

To assure adequately trained teachers the State Council of Education on January 9, 1948 established definite regulations for certification of teachers in Highway Safety Education. This program went into effect September 1, 1948. There are now twenty-five approved institutions in Pennsylvania where teachers may secure adequate instruction in Safety Education. These institutions are making available approved courses in the field to students, prospective teachers, and teachers in service. *Trained and informed teachers are a fundamental need if we are to expect encouraging results toward solving our problems in the field of Safety Education.*

NEED FOR COMPREHENSIVE SAFETY PROGRAM

We must not forget the other phases of a comprehensive safety education program. *It is our aim to establish such a course of accident prevention that it will extend from the first to the twelfth grade in the public schools. A well-planned, flexible program should include units in Safety at School, Safety at Home, and Safety in the Community. It should be directed toward developing in the child an appreciation of the need for safety in relation to himself, his family, and his community. Instruction may be integrated with such courses as health instruction, physical education, art, music, social studies, arithmetic, reading, and English.*

We must enlarge or organize the school safety patrol program in every elementary school of the Commonwealth, utilizing responsible pupils to insure the safety of children who must walk along hazardous routes to and from school, and especially at intersections located near the school.

BICYCLE SAFETY IS IMPORTANT

Because of the rapid increase in the use of the bicycle, especially among boys and girls of school age, and their involvement in motor vehicle traffic accidents, *there is a need for teaching boys and girls bicycle safety.* The bicycle has the same rights on the highways as the automobile, but it must be remembered that along with the privileges granted to the cyclist by the Pennsylvania Vehicle Code there are also definite obligations and rules which he must obey. Too much emphasis cannot be placed upon careful, considerate riding and observance of safe rules of riding, in addition to observing all traffic regulations and rules specifically covering bicycling. Lack of consideration for fellow-riders, pedestrians, or motorists brings condemnation upon all bicyclists. The fact that the accident rate involving bicyclists has been rising steadily indicates the need for bicycle safety education. In full support of this need, statistics indicate that three-fourths of all bicycle riders involved in accidents were violating traffic laws.

INSTITUTES FOR SCHOOL BUS DRIVERS

The school bus driver is charged with an important task. He is not only the guardian of the safety of the children whose lives are entrusted to his care but he is the custodian of valuable equipment which should operate at the peak of efficiency and economy. Moreover, because of the time he spends with pupils on the way to and from school he is in a position to exert considerable influence in shaping the lives of his youthful charges. Therefore, The Division of Highway Safety Education and Public Service Institute, in conjunction with the County Superintendents of Pennsylvania Schools, are now conducting Institutes for school bus drivers. These school bus Institutes are designed to acquaint school bus drivers, school administrators, and school board members with the basic principles of safe and economical transportation. Lectures, demonstrations, panels, psychophysical tests, road tests, and training films are employed as teaching techniques during the Institute. Speakers are secured from the Department of Public Instruction, the Pennsylvania State Police, the American Red Cross, local commercial transportation companies, local school officials and bus drivers.

ADULT EDUCATION IN SCHOOLS

Approximately forty school districts in the Commonwealth are conducting Adult Education Programs in conjunction with their High School Driver Education Program. This was made possible through the Extension Education Program whereby school districts can receive financial aid for this program. The work is being carried on in the evenings, Saturday mornings, and during the summer months.

Progress in Safety Education depends upon the constant, whole-hearted cooperation of all concerned - Home, school, and Community - and of all the Agencies vitally interested in promoting Safety Education.

ED. NOTE: THE FOREGOING ARTICLE BY MR. STEHMAN SETS FORTH MANY OF THE PRINCIPLES AND OBJECTIVES WHICH THE SUPPORT GROUPS WILL BE ASKED TO EMBRACE AND INCLUDE IN SUBSEQUENT ACTION PROGRAMS.

COMMITTEE AND SUPPORT GROUP ACTIVITIES

COMMITTEE DISTRIBUTES SAFETY TRANSCRIPTIONS

TWELVE SETS OF HIGHWAY SAFETY RADIO TRANSCRIPTIONS HAVE BEEN DISTRIBUTED TO THE FIELD COMMITTEES - THREE SETS TO EACH DISTRICT. THESE ARE DOUBLE-FACED PLATTERS CONSISTING OF 18 DIFFERENT HIGHWAY SAFETY DRAMATIZATIONS, RUNNING APPROXIMATELY 15 MINUTES EACH, AND ARE PREPARED BY THE NATIONAL BROADCASTING COMPANY, USING PROFESSIONAL ACTORS AND ACTRESSES, UNDER THE AUSPICES OF THE AMERICAN ASSOCIATION OF MOTOR VEHICLE ADMINISTRATORS.

CAPTAIN McCANN, CHAIRMAN OF THE WESTERN PENNSYLVANIA FIELD COMMITTEE, HAS ENLISTED THE AID OF 18 RADIO STATIONS IN PRESENTING A SERIES OF WEEKLY PROGRAMS USING THESE SAFETY TRANSCRIPTIONS. THE FIRST BROADCAST WAS MADE ON APRIL 6TH FROM STATION WCED IN DuBois. SIMILAR PROGRAMS HAVE BEEN ARRANGED IN THE OTHER DISTRICTS.

THE COMMITTEE IS INTERESTED IN OBTAINING OPINIONS AND COMMENTS FROM THOSE PERSONS WHO ARE ABLE TO HEAR THESE PROGRAMS.

ENGINEERS DESIGN CLINIC EQUIPMENT

A GROUP OF ENGINEERS ARE NOW AT WORK DESIGNING EQUIPMENT FOR THE DRIVER CLINICS TO BE CONSTRUCTED THROUGHOUT PENNSYLVANIA.

THE FIRST PIECE OF EQUIPMENT BEING DESIGNED WILL INCLUDE FOUR TESTS:

- (A) SIMPLE REACTION
- (B) EYE-HAND COORDINATION
- (C) COMBINATION OF SIMPLE REACTION AND EYE-HAND COORDINATION AND
- (D) A COMPLEX-VIGILANCE TEST

ELECTRIC CLOCKS WILL RECORD ELAPSED TIME TO THE NEAREST ONE-HUNDRETH OF A SECOND. INCLUDED IN THE TEST WILL BE A SPEEDOMETER WHICH WILL MEASURE THE SPEED IN ACCORDANCE WITH THE RATE OF ACCELERATION APPLIED BY THE SUBJECT. UPON COMPLETION OF THE EQUIPMENT FOR THE COMPLEX-VIGILANCE TEST, DESIGN AND CONSTRUCTION OF EQUIPMENT FOR A COMBINATION-VISUAL TEST WILL BE STARTED. THE DESIGNING OF THIS EQUIPMENT REQUIRES MUCH PAINSTAKING RESEARCH, AS THE EQUIPMENT IS INTENDED TO MEET SUCH HIGH STANDARDS AS WILL ENABLE THE RESULTS OF TESTS TO BE USED IN COURT CASES.

* * * * *

THREE MEETINGS PLANNED FOR SUPPORT GROUP COMMITTEES

AT LEAST THREE MEETINGS OF THE SUPPORT GROUP COMMITTEES WILL BE HELD DURING 1949. FOLLOWING THE ORGANIZATIONAL MEETING (AT WHICH ALL GROUPS WILL BE INFORMED OF THE PROPOSED PROGRAM) A PROGRAM-PLANNING MEETING WILL BE HELD TO FORMULATE DETAILS AND DELEGATE RESPONSIBILITY FOR THE CARRYING OUT OF THAT PROGRAM. PROGRAM PLANNING KITS WILL BE DISTRIBUTED PRIOR TO THIS MEETING. TENTATIVELY, THE PROGRAM KIT IS INTENDED TO COVER A 6-MONTH PERIOD. PRIOR TO THE EXPIRATION OF THIS 6-MONTH PERIOD IT WILL BE NECESSARY TO CALL ANOTHER MEETING TO COORDINATE DETAILS OF THE NEW PROGRAM PERIOD.

SAFETY DIRECTORY PLANNED

AS SOON AS SUFFICIENT INFORMATION IS AVAILABLE, A DIRECTORY OF PERSONS AND ORGANIZATIONS TAKING AN ACTIVE PART IN SAFETY WORK WILL BE ISSUED TO SUPPLEMENT THE MATERIAL IN THE PROGRAM PLANNING KIT. THE COMMITTEE DESIRES THE FOLLOWING INFORMATION:

1. NAME OF SAFETY ORGANIZATION
2. ADDRESS OF HEADQUARTERS
3. AREA IN WHICH IT OPERATES
4. NAME AND ADDRESS OF PRINCIPAL OFFICERS
5. NUMBER OF MEMBERS

IF YOU KNOW OF ANY GROUP OR SAFETY ORGANIZATION WHICH HAS NOT PREVIOUSLY BEEN LISTED IN THIS BULLETIN, PLEASE GIVE THIS INFORMATION TO THE FIELD COMMITTEE CHAIRMAN OR SEND IT TO THE EXECUTIVE DIRECTOR, GOVERNOR'S HIGHWAY SAFETY ADVISORY COMMITTEE, 503 FINANCE BLDG., HARRISBURG.

* * * * *

C. I. O. WITHDRAWS SUPPORT

THE COMMITTEE HAS ACCEPTED, WITH REGRET, THE WITHDRAWAL OF MR. GEORGE CRAIG, REGIONAL DIRECTOR, CONGRESS OF INDUSTRIAL ORGANIZATIONS, FROM SUPPORT OF THE STATE HIGHWAY SAFETY PROGRAM, AS MR. CRAIG ADVISED HE IS UNABLE TO FIND SUFFICIENT TIME TO SERVE THE COMMITTEE IN ANY CAPACITY. THE COMMITTEE HOPES THAT MR. CRAIG'S WITHDRAWAL IS ONLY TEMPORARY.

* * * * *

APPOINTMENTS TO SUPPORT GROUP COMMITTEES

THE RESPONSE TO THE COMMITTEE'S REQUEST FOR APPOINTEES TO SERVE ON THE SUPPORT GROUP COMMITTEE HAS BEEN GRATIFYING. ALL GROUPS, WITH ONE EXCEPTION, HAVE EITHER MADE APPOINTMENTS OR INDICATED THAT APPOINTMENTS WILL BE FORWARDED. TO DATE, 221 PERSONS HAVE BEEN NAMED TO SERVE, 59 IN WESTERN PENNSYLVANIA, 49 IN CENTRAL PENNSYLVANIA, 38 IN NORTHEASTERN PENNSYLVANIA AND 65 IN SOUTHEASTERN PENNSYLVANIA. NAMES OF ADDITIONAL APPOINTEES ARE LISTED IN THE DIRECTORY SECTION OF THE BULLETIN.

* * * * *

SURVEY OF LOCAL SAFETY GROUPS

THE FIELD COMMITTEES ARE PRESENTLY ENGAGED IN CONDUCTING A SURVEY OF ALL LOCAL GROUPS ORGANIZED SOLELY TO PROMOTE SAFETY. IT IS HOPED EVENTUALLY TO OBTAIN SUFFICIENT INFORMATION TO ENABLE DEFINITE PLANS TO BE MADE FOR ORGANIZATION AT COUNTY AND CITY LEVELS.

ALL SUCH LOCAL SAFETY GROUPS WILL BE INVITED TO PARTICIPATE IN THE PROGRAM OF THE GOVERNOR'S HIGHWAY SAFETY ADVISORY COMMITTEE AND TO APPOINT DELEGATES TO SERVE ON THE SUPPORT GROUP COMMITTEES. THROUGH THESE AND SIMILAR APPOINTMENTS, AS NEW SAFETY GROUPS ARE ORGANIZED, IT IS HOPED TO EVENTUALLY OBTAIN REPRESENTATIVES TO SERVE ON THE SUPPORT GROUP COMMITTEES FROM EVERY CITY AND COUNTY IN THE COMMONWEALTH.

AN APPEAL FOR SUPPORT

THE COMMITTEE IS PLANNING AN ALL-OUT COORDINATED ATTACK ON TRAFFIC ACCIDENTS. TO PROVIDE AMMUNITION FOR SUCH AN ATTACK COMPLETE RECORDS OF ACCIDENTS AND VIOLATIONS MUST BE MADE AVAILABLE TO THE BUREAU OF HIGHWAY SAFETY, DEPARTMENT OF REVENUE.

THE FAILURE OF MANY LOCAL OFFICIALS TO INSIST THAT THEIR SUBORDINATES COOPERATE WHOLE-HEARTEDLY WITH THE BUREAU OF HIGHWAY SAFETY THREATENS TO DESTROY THE EFFECTIVENESS OF THE HIGHWAY SAFETY PROGRAM BEING DESIGNED BY THE COMMITTEE.

THE COMMITTEE HAS THEREFORE ADOPTED THE RESOLUTION WHICH APPEARS ON THE OPPOSITE PAGE, AND FORWARDED COPIES OF THIS RESOLUTION, TOGETHER WITH A REQUEST FOR BETTER COOPERATION, TO THE PRINCIPAL OFFICERS OF THE CITIES OF OVER 25,000 POPULATION WHO HAVE BEEN DELINQUENT IN THIS MATTER.

THERE ARE STILL OTHER CITIES WHERE OFFICIAL COOPERATION IS FAR FROM BEING ONE-HUNDRED PERCENT. THERE IS NOTHING TO PREVENT FULL COOPERATION IN SUCH VITAL MATTERS. THE COMMITTEE, THEREFORE, APPEALS TO ALL MEMBERS OF THOSE GROUPS PLEDGING SUPPORT OF THE GOVERNOR'S HIGHWAY SAFETY PROGRAM TO URGE FULL COOPERATION BY ALL MUNICIPAL OFFICIALS WITH RESPECT TO THE REPORTING OF TRAFFIC ACCIDENTS AND CONVICTIONS FOR MOVING-TRAFFIC VIOLATIONS. ONLY BY COMPLETE COOPERATION OF ALL CONCERNED CAN AN EFFECTIVE HIGHWAY SAFETY PROGRAM BE CARRIED OUT.

A RESOLUTION PERTAINING TO THE REPORTING OF TRAFFIC ACCIDENTS AND
CONVICTIONS FOR MOVING VIOLATIONS OF THE PENNSYLVANIA MOTOR VEHICLE CODE

WHEREAS, the compilation and analysis of all traffic accident records and reports provides the only reliable means of determining in what manner selective enforcement and corrective engineering should be applied to the problem of reducing traffic accidents, and

WHEREAS, complete records of convictions for moving traffic violations must be made available to the Bureau of Highway Safety if corrective action is to be taken against the habitual violator, and

WHEREAS, many local officials are failing to cooperate in the reporting of traffic accidents and convictions for moving traffic violations, and

WHEREAS, such failure on the part of local officials to cooperate is hampering the State program against traffic accidents,

BE IT therefore resolved that the Governor's Highway Safety Advisory Committee deplors the lack of cooperation from the officials of those cities which are failing to report traffic accidents and convictions for moving traffic violations, and

BE IT further resolved that a copy of this resolution be given to the officials of those larger cities which are failing to cooperate, and

BE IT further resolved that a copy of this resolution be given to the officials of those state-wide groups supporting the program of the Governor's Highway Safety Advisory Committee, and

BE IT further resolved that all Support Groups be requested to solicit the local officials for cooperation with respect to the reporting of traffic accidents and convictions for moving traffic violations.

Moved, seconded, and unanimously adopted the 10th day of March, 1949.

GOVERNOR'S HIGHWAY SAFETY ADVISORY COMMITTEE

EDITORIAL

A POSITIVE APPROACH TO TRAFFIC PROBLEM

ONE OF THE MOST OFTEN REPEATED SUGGESTIONS RECEIVED BY THE GOVERNOR'S HIGHWAY SAFETY ADVISORY COMMITTEE CALLS FOR THE FORMATION OF A CIVILIAN VIGILANTE ORGANIZATION TO PATROL THE HIGHWAYS AND STREETS. USUALLY THE MEMBERS ARE CALLED BY SOME EUPHONIOUS-SOUNDING NAME SUCH AS "SAFETY OBSERVERS", "TRAFFIC OBSERVERS", OR "T-MEN" BUT, WHATEVER THE CHOSEN NAME, THEY ACT ESSENTIALLY AS BUSY BODIES, SNOOPERS AND TATTLE-TALES, THEIR DUTIES BEING TO WATCH FOR AND REPORT, TO THE OFFICIALS, ALL SERIOUS TRAFFIC VIOLATIONS THEY SEE COMMITTED. THE OFFICIALS ARE SUPPOSED TO FOLLOW UP WITH A LETTER OF REPRIMAND TO THE PERSON WHO COMMITTED THE VIOLATION. THE PLAN HAS APPARENTLY OBTAINED SOME RESULTS FOR THE CITIZENS TRAFFIC COMMITTEE OF DALLAS, TEXAS AND HAS BEEN RECENTLY ADOPTED BY A LOCAL SAFETY GROUP. HOWEVER, IT IS QUESTIONABLE WHETHER THE RESULTS OBTAINED IN SAVING LIVES WERE WORTH THE PAYMENT OF CREATING HUNDREDS OF DRIVERS WITH WARPED ATTITUDES.. DRIVERS WITH A FEAR COMPLEX, WHO SEE A SNOOPER IN EVERY CAR FOLLOWING THEM. FEAR OF PUNISHMENT IS ONE OF THE GREATEST DETERRENTS TO WRONG-DOING, BUT IT DOESN'T CREATE A DESIRE TO DO WHAT IS THE BEST THING.

THIS NEGATIVE APPROACH TO SOLVING THE TRAFFIC PROBLEM IS OFTEN DEPLORED, BUT FEW SUGGESTIONS OFFERED ACTUALLY PROPOSE POSITIVE STEPS TO BUILD CORRECT ATTITUDES. RATHER THAN INSTILLING THE DRIVERS WITH A FEAR OF DOING THE WRONG THING WE SHOULD MAKE THEM WANT TO DO THE RIGHT THING. SINCE THE RIGHT THING IS MERELY COURTESY, AS EXEMPLIFIED BY THE GOLDEN RULE, IT SHOULD BE COMPARATIVELY SIMPLE TO DEVELOPE POSITIVE APPROACHES TO THE TRAFFIC PROBLEM. THE HIGHWAY USERS CONFERENCE HAS RECENTLY DEVELOPED AND PUBLISHED *Emily Post's Blue Booklet of Traffic Etiquette "Motor Manners"*, WHICH IS A GOOD EXAMPLE OF A POSITIVE APPROACH. ALTHOUGH ENFORCEMENT IS NECESSARY TO PROTECT THE 90% WHO OBEY THE LAWS 90% OF THE TIME, A COMMENDATION FOR A COURTEOUS BIT OF DRIVING APPEALS TO EVERYONE ALL OF THE TIME. TRAFFIC SAFETY IS NOT A PROBLEM TO BE SOLVED THROUGH THE REGIMENTATION OF ENFORCEMENT. RATHER, IT IS A GOAL TO BE REACHED OVER THE BRIDGE OF PUBLIC SUPPORT. IT IS THIS POSITIVE APPROACH THAT THE GOVERNOR'S HIGHWAY SAFETY ADVISORY COMMITTEE IS DESIROUS OF DEVELOPING TO THE FULLEST EXTENT POSSIBLE. WHAT HAVE YOU TO OFFER?
